Education

The University of Texas at Dallas

Ph.D. in Computer Science (GPA: 4.00 / 4.00), Advisor: Xinya Du

08/2023 - Present

Texas, US

Shandong University

MSc in Computer Technology, Advisor: Xuemeng Song, Liqiang Nie

09/2020 - 07/2023

Shandong, CHN

Hefei University of Technology

B.E. in Computer Science and Technology

09/2016 - 06/2020

Anhui, CHN

Summary

I published **25+** top-tier AI/NLP papers (12 first-author papers), with **1,000+** Google Scholar citations. My research interests are **multimodal learning and natural language processing**, specifically in **Evaluation and Post-Training for Large Vision-Language Models (LVLMs)/Large Language Models (LLMs)**, and **LLMs/LVLMs as Agents for Real-world Tasks**, such as AI4Science.

Intern Experience

Applied Scientist Intern, Bedrock, Amazon Web Services

Mentor: Eti Rastogi, Jianfeng He, Soumya Sanyal, Tianchen Zhao, Xiong Zhou

05/2026 - 08/2026

Seattle, US

- Work on LLM reasoning interpretability, identified silent restoration, a failure mode where LLMs reach the correct answer with wrong reasoning steps. Built a linear-probe detector on residual-stream activations, showed the error signal is **pre-committed**, readable before the wrong tokens are generated, and showed the probe direction can be steered via a projected-gradient-descent activation attack

Applied Scientist Intern, Bedrock, Amazon Web Services

Mentor: Xiong Zhou, Evangelia Spiliopoulou, Neha Anna John, Siddharth Varia, Ioannidis Vassilis

05/2025 - 08/2025

Seattle, US

- Evaluate **robustness of visual reasoning ability of multimodal large language models** and devise a **weakly-supervised GRPO-based Reinforcement Learning** algorithm to boost robust visual reasoning ability.

Research Intern, AI Lab, Tencent America

Mentor: Xiaoyang Wang, Wenhao Yu, Wenlin Yao, Kaixin Ma, Dong Yu

05/2024 - 08/2024

Bellevue, US

- Focus on evaluating **data science agents** and large language/vision-language models with data science tasks. The work is **used by OpenAI for ChatGPT agent evaluation**. Construct a new data science benchmark.

Research Intern, Damo Academy, Alibaba Group

Mentor: Xuming Lin, Xinxing Zu, and Zhongzhou Zhao

05/2021 - 09/2022

Hangzhou, CHN

- Work on sign language translation and propose a **stylized data-to-text generation** task. Achieved new state-of-the-art performances on **multimodal product summarization** and stylized data-to-text generation. Relevant achievements have been **deployed to Alibaba Group and serve more than 200 companies**.

Research Papers

First-author Paper

[A1] *Be Consistent! Enhancing Robust Visual Reasoning in LVLMs with Consistency Constraints*. Under Review.

[A2] *Coverage Matters: A Feature-Space Approach to Data Selection for LLM Fine-Tuning*. Under Review.

[A3] *A Skill-augmented Agentic Framework and Benchmark for Multi-Video Understanding*. EMNLP (2026).

[A4] *FIFA: Unified Faithfulness Evaluation Framework for Text-to-Video and Video-to-Text Generation*. ACL (2026).

[A5] *DSBench: How Far Are Data Science Agents to Becoming Data Science Experts?* ICLR (2025). **HuggingFace #1**

Paper of the day. Used by OpenAI for ChatGPT agent evaluation.

[A6] *FGAIF: Aligning Large Vision-Language Models with Fine-grained AI Feedback*. TMLR (2025).

[A7] *FIHA: Fine-grained Hallucinations Evaluations in Large Vision Language Models*. ACL (2025).

[A8] *FAITHSCORE: Evaluating Hallucinations in Large Vision-Language Models*. EMNLP (2024).

[A9] *A Unified Hallucination Mitigation Framework for Large Vision-Language Models*. TMLR (2024).

- [A10] *Multi-source Semantic Graph-based Multimodal Sarcasm Explanation Generation*. ACL (2023).
- [A11] *A Comprehensive Analysis for Visual Object Hallucination in Large Vision-Language Models*. EMNLP (2026).
- [A12] *VK-G2T: Vision and Context Knowledge enhanced Gloss2Text*. ICASSP (2024).
- [A13] *Stylized Data-to-Text Generation: A Case Study in the E-Commerce Domain*. ACM TOIS (2023).
- [A14] *Vision Enhanced Generative Pre-trained Language Model for Multimodal Sentence Summarization*. Machine Intelligence Research (2023).
- [A15] *Debiased Outfit Compatibility Modeling with Counterfactual Inference*. ACM MM (2022).
- [A16] *User-Level Safety Alignment*. ICASSP (2026).

Project Leader or Co-leader

- [B1] *DeployBench: Benchmarking LLM Agents for Research Artifact Deployment*. Yuanli Wang, Yaoyao Qian, Yue Zhang, **Liqiang Jing**. EMNLP (2026).
- [B2] *Learning to Generate Research Idea with Dynamic Control*. Ruochen Li, **Liqiang Jing**, et al. EMNLP (2026), AI4Research@AAAI (2025, **Best Paper Award**).
- [B3] *Can Large Vision-Language Models Understand Multimodal Sarcasm?* Xinyu Wang*, Yue Zhang* & **Liqiang Jing**. CIKM (2025). **Best Paper Candidate**.
- [B4] *LMR-BENCH: Evaluating LLM Agent's Ability on Reproducing Language Modeling Research*. Shuo Yan*, Ruochen Li*, Ziming Luo*, Zimu Wang*, Daoyang Li*, **Liqiang Jing**, et al. . EMNLP (2025).
- [B5] *Fine-grained and Explainable Factuality Evaluation for Multimodal Summarization*. Yue Zhang, Jingxuan Zuo & **Liqiang Jing**. DocUI@AAAI (2025).
- [B6] *Defeasible Visual Entailment: Benchmark, Evaluator, and Reward-Driven Optimization*. Yue Zhang, **Liqiang Jing** & Vibhav Gogate. AAAI (2025).
- [B7] *Sentiment-enhanced Graph-based Sarcasm Explanation in Dialogue*. Kun Ouyang, **Liqiang Jing** et al. TMM (2025).
- [B8] *Debiasing Multimodal Sarcasm Detection with Contrastive Learning*. Mengzhao Jia, Can Xie & **Liqiang Jing**. AAAI (2024).
- [B9] *Adapting Generative Pretrained Language Model for General Multimodal Sentence Summarization*. Dengtian Lin, **Liqiang Jing**, et al. ACM SIGIR. (2023).
- [B10] *V2P: Vision-to-Prompt based Multi-Modal Product Summary Generation*. Xuemeng Song, **Liqiang Jing**, et al. ACM SIGIR. (2022).
- [B11] *Mutual-enhanced Incongruity Learning Network for Multi-modal Sarcasm Detection*. Yang Qiao, **Liqiang Jing**, et al. AAAI (2023).

Other Co-author Paper

- [C1] *Dual Knowledge-enhanced Multimodal Dialog Systems with Generative Pretrained Language Model*. TOIS (2023).
- [C2] *Dual Consistency-enhanced Semi-supervised Sentiment Analysis towards COVID-19 Tweets*. IEEE TKDE 2023.
- [C3] *General Debiasing for Multimodal Sentiment Analysis*. ACM MM (2023).
- [C4] *Counterfactual Reasoning for Out-of-distribution Multimodal Sentiment Analysis*. ACM MM (2022).
- [C5] *Dr.V: A Hierarchical Perception-Temporal-Cognition Framework to Diagnose Video Hallucination by Fine-grained Spatial-Temporal Grounding*. IJCV (2026).
- [C6] *Speech Recognition on TV Series with Video-guided Post-Correction*. Interspeech (2026).
- [C7] *SkillsBench: Benchmarking How Well Agent Skills Work Across Diverse Tasks*. Preprint.
- [C8] *Multimodal Reference Visual Grounding*. Preprint.

Selected Awards, Honors & Service

Jan Van der Ziel Fellowship (2026)	Best Paper Candidate , CIKM (2025)
Best Paper Award , AAAI AI4Research (2025)	Lambda Research Grant, \$2,000 (2025)
Louis Beecherl, Jr. Graduate Fellowship (2025)	ICLR Financial Assistance (2025)
OpenAI Researcher Access Program (2024, 2025)	Amazon Trusted AI Challenge, Global Top 10 (2024)
Dean of Graduate Education Dissertation Research Award (2026)	
Academic Service: Area Chair, BMVC 2025; Organizer, MKLM Workshop at IJCAI 2025 and Hallucination Tutorial at ICMR 2025; Reviewer for ACM MM, NeurIPS, ICML, ICLR, EMNLP, COLING, CVPR, and ACL ARR.
